Holman Fleet Transactions Tracking

Overview

This dashboard serves as a central hub for tracking vehicle transactions that are flagged for review helping to identify and manage potential issues efficiently. It provides a comprehensive view of the following flagging categories

- **Over Capacity:** When the Amount of fuel paid for in a transaction exceeds the fuel tank capacity of the given vehicle
- **Premium:** When the fuel type purchased is Premium
- **Non Fuel:** Flags all transactions that are not a purchase of fuel

Additionally, when a vehicle has 3 or more transactions in a day these transactions are then flagged under "**Multiple Transactions**"

***Dashboard default filter only displays data for the Guarding business Segment ***
(Data displayed is only for the past 90 days)

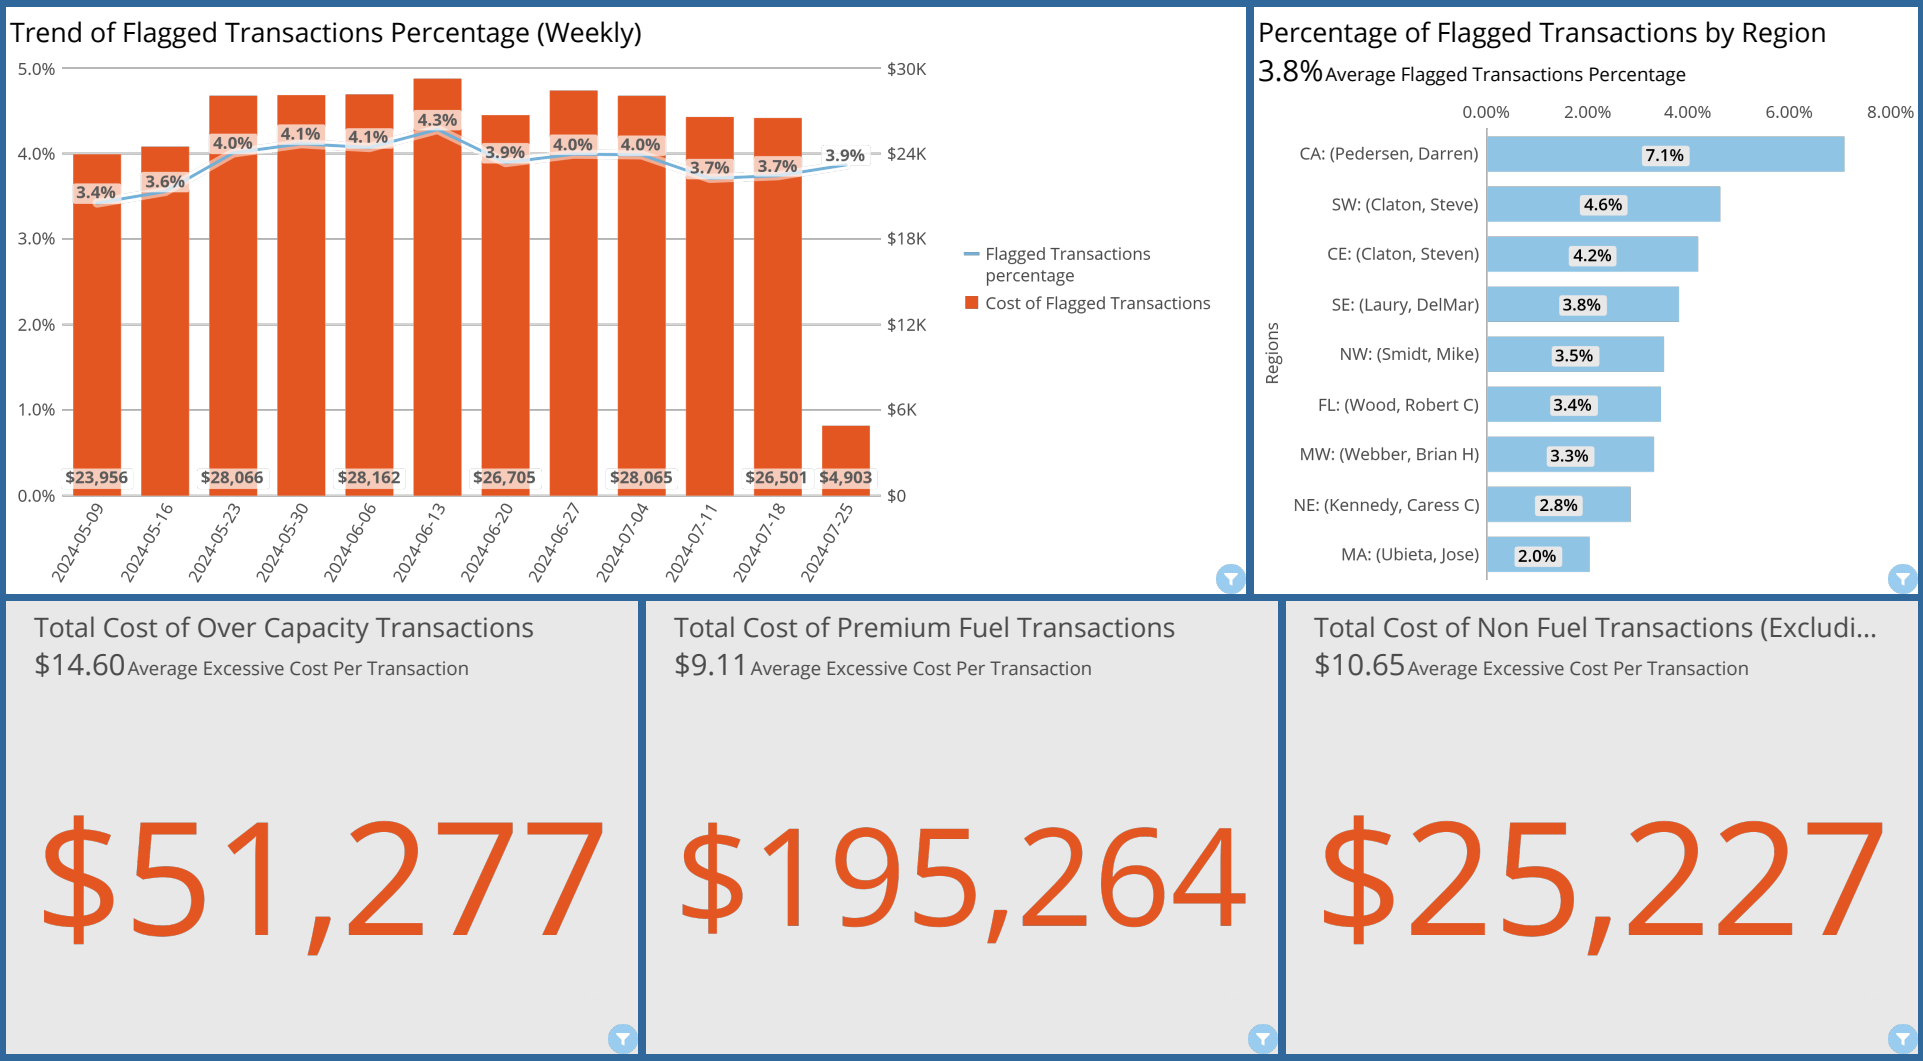

Key Features

- Total Costs of Different Flagging Categories.
- List of All Flagged Transactions in the past 30 days

Data Refresh Rates
